o Go to Component to customise AVG extended firewall and change system rules

AVG AVG Busine	ess	? ×
Policies	DEFAULT RULES	
Network profiles	For programs with no defined rules (i.e. programs not listed on the Application Rules page), do the following:	
Friends	Auto-decide 👻	
Advanced	PREFERENCES	
	Show notifications about newly created "allow" rules	
	Show notifications about newly created "block" rules	
	Internet Connection Sharing mode	
	Allow all connections with Friends when in Private mode	
	PACKET RULES	
	Expert users can also review the list of low-level (packet) rules of the firewall.	
	System rules Packet rules	
	ок)	Cancel

 \circ $\ \ \,$ Go to System rules to enable first two items from the top

System rules				
The controls on this page allow you to enable or disable pre-defined system rules.				
RULES				
Allow Windows File and Printer sharing	Enabled 🗸			
Allow remote desktop connections to this computer	Enabled 🗸			
Allow incoming ping and trace requests (ICMP)	Enabled 🗸			
Allow outgoing ping and trace requests (ICMP)	Enabled 🗸			
Allow IGMP traffic	Enabled 🗸			
Allow multicast traffic	Enabled 🗸			
Allow DNS	Enabled 🗸			
Allow DHCP	Enabled 🗸			
Allow VPN connections via PPTP	Enabled 🗸			
Allow VPN connections via L2TP-IPSec	Enabled 🗸			
Allow stealth mode for public networks	Not configured 👻			

- Uninstall AVG firewall component so Windows firewall controls the firewall rules instead of built in AVG firewall as the rules could be too strong for all the instrument computers
 - o Go to menu

o Go to settings
