

ACLS Release Notes

By: Dong Zheng, MWAC, UNSW

12.01.2017 - SQL 2.10.7

- ANFF UQ:
 - o New style for ordering consumables
 - o New style for staff resources
 - o New style for user profile

10.01.2017 - SQL 2.10.6

- Mobile html wrapup:
 - o Add order consumable link at the top of page

09.10.2017 - SQL 2.10.5

- Update consumable order: account is editable
- Bug:
 - o Order consumable email not working

08.01.2017 - SQL 2.10.4

- View calendar: new theme change
- Contact user in calendar:
 - o Remove hyperlink and add user image column: The new fly outs are very nice. The User Contacts fly out that is accessible from Booking calendar pages have a hyperlink which isn't linking to anything from the User Name. I can see a `javascript:void(0);` in the bottom left of the window when I mouse over the name - is it trying unsuccessfully to show the user image?
 - o Add mobile column
- My usage: restore charging table. Deakin: Is there anywhere in ACLS where a user can monitor their own current charges. I know they can see their usage in hours but it doesn't show a monetary value. If they use different accounts, they can't see when they've reached the limit of their budget for their account. I know there is a budget envelope but that only shows a limit for an account for all users, not for one specific user. Not apply for MCN mod.
- Account manager: Please could you expand the search functions within BRIL's and FLOW's ACLS to allow searching by account? Ideally, this information would be preferred to User detail, but Project is next best, and by Supervisor would be helpful too. The closer all search and reporting

functions on ACLS for FLOW and BRIL can match those on SSEAU, the better.

05.01.2017 - SQL 2.10.3

- Bug
 - o Lab calendar: copy holidays to next year does not set calendar code correctly for insert

05.01.2017 - **Email Server 1.0.21**

- Validate certificates with the last booking instead of last access time for single facility certification
- MCN:
 - o Process mail_user for user booking

04.01.2017 - SQL 2.10.2

- MCN mod
 - o Ticking box for assisted booking tool
 - o Add field 'mail_user' to eventprocess table as bool, def false
- Lab event calendar:
 - o Redesign in line with the new style
 - o Change to timeline style
- My home:
 - o Lab calendar is changed to time line and modal window for details

03.01.2017 - SQL 2.10.1

- IHRMI:
 - o Mod
 - Booking Report - Facility - Date heading is missing and data for the % Usage column is missing
 - Booking Report - Booking Type - Date heading is missing and data for the % Usage column is missing
 - Booking Report - Supervisor - Date heading is missing and data for the % Usage column is missing
 - o Freq access: Register Facility Profile, Search Facility Profile, Search Contract, Search Incident and Training Manager
 - o Maintenance resources: update to new style
 - o Dashboard: update to new style for IHMRI

- Publications: update to new style

29.12.2016 - SQL 2.10

- Consumable order:
 - o Register
 - o Search
 - o Change
 - o Report
 - o Order
- New tables:
 - o consumablecart
 - o consumabletopuplog
 - o consumableorder

20.12.2016 - SQL 2.9.5.5 (Deakin Mod)

 - o Deskin
 - o Anffuq
 - o Ihmri
 - o Cmca
 - o Standard
 - o Mcn
- Staff resoiurces: apply new UI
 - o Deskin
 - o Anffuq
 - o Ihmri
 - o Cmca
 - o Standard
 - o Mcn
- Bugs:
 - o Deakin booking summary, should usrcert_id instead of usrcert

18.12.2016 - SQL 2.9.5.4 (Deakin Mod)

- Batch report:
 - o Remove the radio selection for overnight and now
 - o Run report now as only option
 - o Deakin: if selecting the current month, system runs as partial
- Facility period report:
 - o Include user booking type to the report
 - o Deakin: allowing staff to access

17.12.2016 - SQL 2.9.5.3 (Deakin Mod)

- Change 'catalogues' to 'catalogue'
- Include charge rate to the catalogue page
- Remove all exclamation marks from alert messages
- Training booking report (month/period): add 'charges' to the report
- Period facility report:: add multiple facilities selection page
- Bug:
 - o Partial batch report cannot run when the selected month/year is later than the current time
 - o OSLO: crossing 13:00 check not working when repeat booking is enabled and user only making current day booking
 - o Facility wizard: for account based, when entering a new facility, it is not saved

16.12.2016 - SQL 2.9.5.2 (Deakin Mod)

- Batch report: partial for Deakin

 - o Terms and conditions

13.12.2016 - SQL 2.9.5 (Deakin Mod)

- New booking calendar UI with modal windows for facility details, booking restrictions, user contacts and booking color codes
 - o Facility booking
 - o User booking
 - o Commercial booking

- o Service booking
- o Group booking
- o MCN: assisted booking
- o OSLO: assisted booking
- o Deakin: user booking
- Staff need to be able to edit past and future bookings in all tools to change the start time and date as well as end time and date.
- Remove calendar blocking:
 - o Facility booking
 - o User booking
 - o Commercial booking
 - o Service booking
 - o Group booking
 - o MCN: assisted booking
 - o OSLO: assisted booking
 - o Deakin: user booking
- Deakin:
 - o Staff need to be able to edit past and future bookings in all tools to change the account code.
 - o User tool
 - o Staff need to be able to edit past and future bookings in all tools to change the start time and date as well as end time and date.

08.12.2016 - SQL 2.9.4 (Deakin Mod)

- User profile:
 - o School is editable by admin only
- Edit booking page:
 - o Default date is 3 months ago from now instead of one year

07.12.2016 - SQL 2.9.3 (Deakin Mod)

- Facility catalogues:
 - o Home page
 - o Dashboard link
 - o Catalogue page

06.12.2016 - SQL 2.9.2 (Deakin Mod)

- Book tab:
 - o Home page:
 - Add corea
 - Add frequent access links
 - Add favourites
- My home page: new UI

- User profile manager: new UI
- Link above each calendar for "My certificate". When link is clicked it displays a pop-up with certificate details and access group details.
- When a certificate is suspended, keep it in the user's certificate list so it can easily be re-enabled (as is currently available in training manager)
- Bug:
 - o Fix the speech marks causing system crash when user login name contains the speech marks

01.12.2016 - SQL 2.9.1 (Deakin Mod)

- Booking report: all features for new UI
- Training booking report: add account
- Period facility booking report: change and add all fields according to mod doc, including EXCEL
- Not add hourly charge rate

20.11.2016 - SQL 2.9 (Deakin Mod)

- On booking calendar pages, Change the link to view facility details from an icon to a link. The link should read "Facility details"
 - o Facility booking
 - o User booking
 - o Training booking
 - o Commercial booking
 - o Service booking
 - o Group booking
 - o IHMRI Maintenance booking
 - o Deakin user booking
 - o MCN assisted booking
 - o Oslo assisted booking
- Change error message from "someone logged in with your username, you have to relogin" to "Please log in again"
- Facility settings - increase possible minimum hours per session to 24
- Wizard: new UI applied
 - o Facility
 - o Certificate
 - o Group certificate

- Dashboard tab
 - o Add terms & conditions http link to terms.txt
- Bugs:
 - o Group booking content list file wrongly including the account selection list

1.11.2016 - SQL 2.8

- Major UI change for entire system
 - o Alert box

- Fix Bug:

- o Current day booking not allowed: replace php date form from G:i:s to H:i:s

v2.3.3.1 - 10.06.2016

- Fix bug:
 - o Deakin: system fails to book the session if the staff is not trainer as pre-approved session
 - o IHMRI: mobile browser version not showing maintenance booking

v2.3.3 - 8.06.2016

- CMCA Mod: change email notice writing as per CMCA request: " If you are a new user, we shall be in contact with you for meeting and training shortly."
- Fix bug:
 - o IHMRI: search facility assembly and edit not working
 - o Current day booking: a bug when editing a booking that is in progress.

v 2.3.1 - 5.06.2016

- OSLO version SQL changes
- Email server 1.0.14: OSLO SQL changes

v2.3 - 2.06.2016

- IHMRI mod

v2.2.5 - 29.05.2016

- User profile manager: replace the admin panel with the new design
- Fix critical bugs:
 - o Edit user certificate wrongly displayed traingin date and trainer name

v2.2.4 - 27.05.2016

- Allow month selection for booking calendar to general users
- Change all booking report note field to the last column
- Fix critical bugs:
 - o Set the only supervisor as the default for report/invoice
 - o Show the wrong group certificate trainer for edit user certificate
 - o Fix user booking and training booking tool issue that stops continuing booking when the booking session is shorter than the min required
 - o Facility owners cannot edit the facilities at facility manager
 - o Facility owners cannot access facility wizard

v2.2.3 - 27.05.2016

- Fix critical bugs:
 - o Fixing the initialization of booking facility list if the user is first time to access

v2.2.2 - 26.05.2016

- IHMRI Mod
- My profile: add student/staff no. field for editing
- MCN: data logbook manager instant booking process
- Fix bugs:
 - o facility wizard display incorrect min session hours when the booking unit is set to 15m

v2.2.1 - 25.05.2016

- IHMRI Mod
- Move 'refresh booking facility list' from 'my calendar' page to the left-menu for resetting facility list cache
- Multiple thread design for user/training/group booking tool to enhance system performance
- Instant booking process for data logbook manager
- Disable supervisor position for user profile editor. Will be restored in the future release with new UI
- Fix bugs:

- o Booking tool correction for the staff who is both trainer to certain facilities and user to the other facilities
- o MCN user registration: local contact selection
- o MCN user registration: fix the incorrect supervisor ID
- o CMCA user registration: missing options for HTML registration copy
