Other	

Sample Information: All samples must be supplied as a milled/prepared dried powder of no less than 100µg in a sealed, clearly labeled, plastic tube. Please fill out the first two columns on the spreadsheet on the back of this form using one line per sample. Please contact bmsf@unsw.edu.au if you require more information.

Acknowledgement / Citation Agreement

Users of the BMSF Analytical Services agree to the following conditions:

- An appropriate acknowledgment of the involvement of the BMSF will appear in any publication involving work in the BMSF.
- In some publications, co-authorship by BMSF staff may be justified. The requirements for contributions worthy of authorship are given in the relevant UNSW procedure: UNSW Authorship and Resolving Disputes between Authors - Procedure <https://www.gs.unsw.edu.au/policy/documents/researchauthorproc.pdf>
- A copy (or full citation details) of any publication involving work in the BMSF will be sent to the Director of the BMSF as soon as possible after acceptance.
