	Analytes	Internal Rate ¹	
		Analytical Centre Staff Perform Analysis	Research Student/Staff Perform Analysis ²
Grinding		\$15 per sample	\$5 per sample
Digestion-open		\$15 per sample	
Digestion-microwave		\$22 per sample	
ICPOES	1-10	\$11 per sample	
ICPOES	11-20	\$22 per sample	
ICPMS Semiquantitative Survey ³	max. 73	\$21 per sample	
ICPMS	1-10	\$21 per sample	
ICPMS	11-30	\$30 per sample	
ICPMS	31-50	\$40 per sample	
ICPMS for Hg ⁴	1	\$22 per sample	
LA-ICPMS Semiquantitative Survey ³	max. 73	\$50 set-up per 5sample batch, \$20 per sample	
LA-ICPMS	1-10	\$60 set-up per 5sample batch, \$30 per sample	
LA-ICPMS -imaging		\$120.00 per hr. (time includes set up, analysis, data processing)	
FIA (Nitrate/nitrite, Ammonia)	NH3, NO2, NO3	\$100 initial set-up, \$5 per sample per analyte	
Ion Chromatography	Anions only	\$30 per sample	
LC-OCD-Single Column	C	\$20 per sample (integration not included)	\$10 per sample
LC-OCD-Dual Columns	C	\$30 per sample (integration not included)	\$15 per sample
Multi NC Analyser	CN	\$16 per sample	
Multi NC Analyser-Seawater	CN	\$21 per sample	

1. These rates apply to UNSW researchers performing non-commercial work.
2. Note that all users require training. Trained users can either pay per sample, or hire the instrument on an hourly basis.
3. A semiquantitative survey measures the approximate quantities of a wide range of elements simultaneously.
4. Consult our staff about sample preparation method.

Number of Samples	Discount per Sample
more than 50	10% off
more than 100	30% off
