# NMR TopSpin License Processing for Academia

In order to provide students, researchers and teachers with unlimited access to the best tools for off-line NMR processing, Bruker is making their market leading NMR processing software TopSpin available free of charge for all academic users. In addition to Bruker NMR data, the software is able to process data acquired on Agilent, Varian and Jeol systems, as well as read any data provided in JCAMP format. We are happy to offer you a free Academia license for **TopSpin 4 and TopSpin 3.6** ("Academia license").

## Disclaimer

Access to Academia licenses is restricted to academic customers. By using this web page for license requests you confirm that you are employed by or studying at an academic- or governmental institution and that you use the software exclusively in this context. Your request and the license generation will be logged. If you do not agree with this, please do not continue.

In the next step a personal ticket code will be generated for you. With this ticket code you can activate the Academia license on a compatible computer of your choice and use the software:

- TopSpin 2.1 pl8 (for AVANCE I)
- TopSpin 1.3 pl10 (for AVANCE DRX, DPX, DMX, and DSX)

For detailed information refer to the corresponding [release letter and software support matrix](#).
